

GT20 - Gametime 2020 Fantasy Baseball League

Summary and Rules

July 2020

Summary - GT20 is a fun, simple Roto league on Yahoo.

The buy-in is \$20, winner takes all. Teams are ranked on 3 hitting cats: batting average, home run, and stolen base. Each team has 11 roster spots: C, 1B, 2B, 3B, SS, OF, OF, OF, DH, and 2 Bench spots. Each team gets 15 moves during the season. There are no IL spots or trades.

A unique aspect: the player pool is limited to players from "eligible" MLB teams. Three teams are automatically eligible: Cubs, Sox, and Brewers. Plus, each fantasy team will add one MLB team to the eligible list.

The draft starts on Fri Jul 17 and continues through Tue Jul 21. The draft happens via email and teams select 2 players per day.

Yahoo league: baseball.fantasysports.yahoo.com/league/gametime2020

League creators are: Bill (tech), Coach Dan (finance), and Tommy (marketing).

"Official" FS2020 rules - subject to change (ha):

1. Bogey - a **fun, simple** league in 2020
2. Kitty - Entry fee is **\$20** per team; winner takes all; in ties \$\$\$ are split
3. Format - **Roto**, hosted on **Yahoo** fantasy baseball
4. Player pool - all MLB players are not available, which is a unique feature to our league (huzzah); only players from **eligible MLB teams** can be drafted; eligible MLB teams come from two sources:
 - a. Three Chicago area teams: Cubs, White Sox, and Milwaukee Brewers
 - b. Each fantasy owner adds an MLB team of players to the pool
 - c. So, for example, with 6 fantasy teams, players are drafted from 9 eligible MLB teams
 - d. A player's MLB on draft day is used throughout the GT20 season; MLB trades to/from eligible teams do not change this
5. Cats - use the **3 offensive tool** categories: batting average, home run, and stolen base
6. Roster - each team has **11 players**: C, 1B, 2B, 3B, SS, OF, OF, OF, DH, and 2 Bench spots; no pitching and no IL spots; no min/max game requirements
7. Num moves - each team gets **15 moves** over (10 week) season; no trades
8. Draft order - initial draft order will be **random** (wheeldecide.com); after round 1, we use a **snake** draft
9. Draft - we **draft slow**, over 5 days, using email, 2 players each day; each team will get a morning and afternoon draft slot; a team can draft (via email message) any time after their slot begins or any time after the teams in front of them have drafted (Bill will help babysit this process)
10. Official season - we will call our fantasy season "official" when any MLB team plays **30 games**, half the MLB 2020 season. Once our season is official, the top team whenever MLB 2020 finishes, gets paid. If the MLB season ends before we become official, then everyone gets their \$\$\$ back and all this never happened (the blip, ha).
11. Problems - things are new and chaotic here in 2020; if a problem arises during the season, then **we vote** to win
12. Friendly league - we are a league of **friends**; honest mistakes happen and will be corrected, free of charge when possible
