This week in LP3

Team OTW - It's a tie this week between **Ronsby Swanson** and **Philly Tracks** (ave cat ranking = 5.9)

This is the 3rd week in a row that Ronsby has been the top team. (woah!)

Philly led the league in bopping in week 8, but unfortunately lost #1 pick **R Acuña Jr** for the season with (another) ACL tear.

(The near) Future Blather

Tesla auto-pilot is 10X safer than humans...and headed to 100X safer (and beyond) in the near future.

In Q1 this year, a Tesla using Autopilot technology experienced one accident per 7.63 million miles driven, while the US average was more than 11x higher

This is a weird video of **two iPhone AI's** "talking" with each other, x.com/BillSEsquire_11/status/1793446300064612641

It reminded me of **the movie Her**, which I really enjoyed, 4 bill-stars (out of 5).

The movie is set in the near future and is about a guy (J Phoenix) who falls on love with his phone AI, www.imdb.com/title/tt1798709

QOTD

Samantha: Is that weird? You think I'm weird?

Theodore: Kind of.

Samantha: Why?

Theodore: Well, you seem like a person but you're just a voice in a computer.

Samantha: I can understand how the limited perspective of an unartificial mind might perceive it that way. You'll get used to it.

[Theodore laughs]

Samantha: Was that funny?

Theodore: Yeah.

Samantha: Oh good, I'm funny!
