

CSC 469 Homework #2

Well, I am trying to conserve your time/effort for Program #1 and the upcoming exam. I think this homework will be a shorty. I like the Ethereal labs for Chapter 2 better than the written problems

So, please complete the following labs/problems. Instead of handing in your assignment, we'll review your answers in class.

So:

- For homework problems, scribble your answers in your book or on a piece of paper, and

The Chapter 2 problems start on page 171. Just do: 1, 3, 4, 8.

I'll actually hand out the Ethereal lab printouts that I assign this time (dop). Please complete:

- Ethereal Lab: Getting Started (if you didn't do it last time)
- Ethereal Lab: HTTP
- Ethereal Lab: DNS

For the Ethereal lab, you can write your answers right in the margin of the lab handout. If the lab calls for saving a screen shot or file, that is your call. I won't need to see it.

thanks... yow, bill
