

IFS 104 Chapter 1 Homework

The problems focus on the material presented in Chapter 1 of our textbook. Use the concepts and examples in this chapter as your guide. Please save your files in the `homework1` folder on your k: drive.

Preparation

Details... due Wed Feb 7, 2007 and worth 2 points

Go:

1. Complete the “Extreme Blading” example in Chapter 1 from page 4-55. Please put your name in a cell somewhere, print out the main page and bring it with you.
2. Read Chapter 1 and submit your notes... focus on major topics, definitions, and “What You Should Know” on page 55.

Postscript

Details... due Fri Feb 9, 2007 and worth 2 points

Go:

1. Complete “In the Lab 1 - Knotting Hill Bookstore” on page 58.
2. Complete “Cases & Places 1 – Reggae Music Company” on page 63.
3. I’m chairman of the “Rex Grossman for President” campaign... anything but taking snaps for the Bears, right? Anyway, I’ve estimated what my quarterly expenses will be this year. The data is in a text file on the k: drive called [badrex.txt](#). Import that text file into Excel and calculate some totals for the year. Also, create a 3-D pie chart on its own worksheet that compares the total cost of each expense.
4. **Web special** – Setup your own Noctrl web page! Go to my web site (<http://william.krieger.faculty.noctrl.edu/>) and follow the directions on Dry Technical Note #2. Don’t forget to publish! And, jazz up your page a bit while you’re at it.
