Online corona course notes

Prof Bill - Mar 2020

Official Noctrl site for Corona info, www.info.northcentralcollege.edu.

So...we're an Online Corona Course (OCC) now. This page describes some of the changes to class going forward. These changes are subject to, um, change.

thanks...yow, bill

Email, website

The class website is still info central, wtkrieger.faculty.noctrl.edu/csc210-spring2020.

And you can still email me, wtkrieger@noctrl.edu.

Lecture

Lecture will be the same day/time as before: MWF 1:20 pm. We'll use Zoom Video to hold our meetings online. I'll email you details on this. I anticipate that lecture will be abbreviated, usually 30 minutes or less.

Office hours

Office hours will be by appointment. Email me! Zoom has a nice feature where we can meet one-on-one.

Exams

Exam #2 is still on schedule for **Fri Mar 20 @ 1:20 pm**.

The exam will be split into two (probably equal) parts:

➔ Blackboard questions where you type in short answers

➔ One-on-one live questions with Prof Bill on Zoom

If Exam #2 goes well, then we will likely do something similar on the Final Exam.

Below - I wrote this section prior to our class discussion about online choices.

Fri Mar 13

210 Quiz: Do you remember my BIG 3 philosophy points from the first class?!?

Choices for our online experience:
- video: Zoom vs. Blackboard Collaborate
- messaging: Slack vs. Outlook emails
- testing: Blackboard (other alts?)

I'll definitely keep our course website going. I reviewed the **Exam Plan**, and it still looks pretty good, wtkrieger.faculty.noctrl.edu/csc210-spring2020/docs/exam_plan.pdf

Exam #2 stuff:
- ❏ Still on track for Fri Mar 20 @ 1:20 pm
- ❏ See Lecture page for material
- ❏ We'll do a pre-exam review on Wed Mar 18
- ❏ And...how about a Blackboard trial quiz on Mon Mar 16?!?

Program #3 stuff:
- ➔ Handout + helper at the Programs page, wtkrieger.faculty.noctrl.edu/csc210-spring2020/programs.html
- ➔ Due in 3 weeks, Fri Apr 3
- ➔ Get your JavaFX + VS Code working
- ➔ Turning it in. We all know the k: drive is painful. Perhaps, this is a great time to learn/use git?!? And then use Github to "turn in" your P3.

Program #4 stuff:
- ➢ Easier: only 6 pts, console, just use VS Code (Eclipse optional)
- ➢ graph application (Dijkstra or something)

Final Exam stuff:
- ❖ Noctrl page: cardinalnet.northcentralcollege.edu/misc/final-exam-schedule
- ❖ I haven't heard of any changes to that plan...yet.
- ❖ According to that, we're up on Mon Apr 27 @ 10:30 am - 12:30 pm

210 Quiz answer: From my Day 1 PK presentation:
1. Prepare
2. I am available
3. Own it!
4. Bonus: Fire, Uranium, No survivors (FUN)

I am available! Please email me if you have any questions or concerns over the class or anything else that is going on.

thanks...yow, bill
