

Eclipse vs. IntelliJ and Baseball Fields

By: Brennan Sweeney

Java IDE

- **Integrated Development Environment**
 - Provides a place to write code, compile, and run/debug all in one place.

Miller Park – Milwaukee, Wisconsin

- Home of Milwaukee Brewers
- Never have a game get cancelled.

As of now is the leading IDE open platform for developers

Community Power

- Eclipse IDE has contributors all around the world that are just like you and me helping power this IDE.

Development Tooling

- New Release supports Java 13
- It also comes with Java editor improvements

Fenway Park- Boston, Massachusetts

- Home of the Boston Red Sox
- Green Monster is iconic
- Beautiful Stadium

Better UI

- Quick Search is no more
- Implemented a Find Actions

Plug-ins

- Eclipse has a large amount of plug-ins.
- Help with creating and building code.

Free and Open Source

- Eclipse is Free!!!!
- It is also Open Source!!!!

AT&T Park – San Francisco, California

- Home of the San Francisco Giants
- Great view!!

IntelliJ

- Improved IDEA and is continuing to grow. Getting closer and closer to the numbers that Eclipse is producing.

Deep Intelligence

- Offers instant and clever code completion
- Also has reliable refactoring tools

Smart Code Completion

- IntelliJ will only suggest code that makes sense in context.

Tropicana Field – Tampa Bay, Florida

- Home of the Tampa Bay Rays.
- Has a fish tank with live sting rays in it.

Productivity Boosters

- It can predict your needs and it automates all the tedious tasks, so you can focus on the big picture.

Unobtrusive Intelligence

- It helps you stay productive without getting in your way.

Free Versions

- IntelliJ does offer a Free Version!!!!

Guaranteed Rate Field – Chicago, Illinois

- Home of the Chicago White Sox
- A little bit biased, but great food and welcoming atmosphere.

Eclipse vs. IntelliJ

- After a very limited time researching.
- I believe that Eclipse would be best for the class to use.
